Features

Please be aware that the features/specifications can differ from country to country.

- 20" X-black Multi-function Display with integrated TV tuner & speakers. Connect multiple IT & AV devices & easily switch between them.
- X-black LCD technology delivers TV, video & photos with true-to-life intensity. Vivid video game animation pulls you into the action.
- SXGA+ (1680x1050) screen resolution.
- Integrated TV tuner with Teletext.
- Picture in Picture + Picture and Picture - keep an eye on the TV while you work.
- Multiple signal inputs - Connect 2 computers (1 x DVI-D & 1 x HD15) and 4 video sources (Composite, S-Video, Peritel SCART and component) at the same time. Switch easily from one source to the next.
- Integrated speakers - 2x3W + 5W subwoofer. SRS WOW sound enhancement included.
- HD-resolution ready - will play High Definition TV programming from HDTV sources. (480p/720p/1080i)
- High brightness (470cd/m²), high contrast (1600:1) & fast screen refresh - for superior image quality and precision.
- Simple setup - Plug & play and the Sony automatic image adjustment feature gives hassle-free configuration.

- Gamma control - for colour matching of the display with digital cameras and printers to ensure the colours shown on screen match those on the other devices. Supports sRGB colour space matching.
- Different picture mode settings - auto-adjusts screen settings to give best picture quality in varying lighting conditions.
- Composite signal input - for connection of external video sources such as DVD players, digital cameras, camcorders & PlayStation.
- S-Video signal input - offers higher quality picture reproduction when used with compatible equipment.
- Component signal input - offers better detail, a cleaner picture, and more accurate & rich colours when used with compatible equipment.
- Cable management system - hides cable clutter for a tidier desk.
- Remote control included.
